

Invitation Letter for the 22nd World Dredging Congress

Supporting Organization

Relevant Organizations:

In order to promote technical innovation and sustainable development of the dredging industry, and enhance exchanges and cooperation between the global dredging families, the 22nd World Dredging Congress will be held at the Shanghai International Conference Center in Shanghai, China from April 22 to 26, 2019.

In this top three-year summit of world dredging industry, the global dredging industry elites will gather together to discuss major issues such as the sustainable development of dredging industry around the theme of Enhance the Harmony between Dredging and Ecology. The most authoritative and influential event in the dredging industry will provide the global dredging relevant companies and institutions with the platform to display innovation abilities, leading technologies and products and outstanding services through diversified forms such as forums, reports, papers, technology and product exhibitions, and multi-exchange activities. This event will also provide a rare opportunity for a large number of new technology owners to integrate into the dredging innovative industry chain.

The organizations who pay attention to and support the development of

dredging industry willing to create more value together are very welcome to participate in this congress. You organizations are welcome to support the congress in an appropriate way. The host of WODCON XXII expresses sincere gratitude for your organization's support and cooperation, and multi-form publicity feedback will be given.

You are welcome to contact the Secretariat of the Preparatory Committee of the Conference. Looking forward to your reply.
